

Treatment & Services – CityCare Wellness Hospital

At **CityCare Wellness Hospital**, we offer a wide range of advanced medical treatments and specialized services to meet the healthcare needs of our patients. Our team of experienced doctors, nurses, and healthcare professionals ensures that every patient receives personalized, compassionate, and high-quality care.

1. General Medicine

Our General Medicine department provides diagnosis, treatment, and preventive care for a wide range of illnesses. We handle everything from seasonal infections to chronic conditions such as diabetes and hypertension.

2. Pediatrics

Our pediatric unit provides specialized medical care for newborns, children, and adolescents. Services include routine check-ups, vaccinations, developmental assessments, and treatment for childhood illnesses.

3. Cardiology

We offer comprehensive heart care services, including ECG, echocardiography, stress testing, and advanced cardiac interventions. Our cardiologists specialize in diagnosing and treating heart disease, hypertension, and arrhythmias.

4. Orthopedics

Our orthopedic department provides treatment for bone, joint, and muscle disorders. We offer fracture management, joint replacement surgeries, sports injury care, and rehabilitation services.

5. Gynecology & Obstetrics

Our maternity care includes antenatal check-ups, painless delivery options, cesarean sections, and postnatal care. We also provide treatment for gynecological disorders and reproductive health issues.

6. Neurology

Our neurology team specializes in the diagnosis and treatment of conditions such as stroke, epilepsy, migraines, and other nervous system disorders.

7. Dermatology

We provide treatment for skin, hair, and nail disorders, including acne, eczema, fungal infections, cosmetic dermatology, and laser treatments.

8. ENT (Ear, Nose & Throat)

Our ENT specialists handle hearing loss, sinus problems, throat infections, and surgical procedures such as tonsillectomy and sinus surgery.

9. Emergency & Trauma Care

Our 24/7 Emergency Department is equipped to handle accidents, injuries, and critical medical situations with immediate care and expert intervention.

10. Diagnostic Services

We offer advanced diagnostic facilities including X-ray, ultrasound, CT scan, MRI, blood tests, and other lab investigations for accurate and quick diagnosis.

11. Physiotherapy & Rehabilitation

Our physiotherapy unit helps patients recover from surgeries, injuries, and chronic pain conditions through personalized exercise programs and therapies.
